# DEDICATION

## TO MR. H. A. DUNAHOO

Who through twenty years has faithfully served this institution by manifesting an outstanding devotion to the many duties that have been his; who has always been patient to hear the manifold problems presented to him, and ready to lend counsel and sympathy that helped those who came to laugh their fears away; whose amiable disposition, Christian character, and extensive background in education has made him a successful classroom teacher and dean of the college,

we, the staff, dedicate

THE NINETEEN HUNDRED FIFTY-THREE  
YEAR BOOK

# PRESIDENT'S MESSAGE

We close each year with the feeling that the achievements of the year have great significance in the life of the institution. With the closing of this school year we take pride in the fact that the Agricultural High School has served this area continuously for 42 years, and the Junior College, at the close of last year, gave emphasis to that year as the Silver Anniversary and the completion of the first twenty-five years of the Junior College. These have been great years and we feel they have added strength to the institution.

This year reminds us to lift our heads and look toward the future. The experiences of the past assures us that we can look toward the future with great hope. The future in terms of years reminds us that the Agricultural High School will complete, at the close of this decade, its first half century of educational services. We should accept the responsibility of contributing to a glorious completion of this period. This year marks the beginning of the second twenty-five years in the life of the Junior College. I pay tribute to you as students and faculty for your part in laying the foundation and pointing the way for this significant period in the history of this institution. May it be said of us by those who measure the achievements of the future, that we were men and women of strong character, of a great faith in the future and in our God, and that we were a people with vision and a determination to inspire within those who follow us, the spirit of high ideals and noble purposes.

This yearbook, THE RADIONIAN, is a record of the achievements of this significant year. However, the achievements recorded in this book are only a small part of the many contributions made by the students and faculty during this year. These achievements will bring honor to the institution, and in our hearts is a feeling of deep gratitude for the contribution each has made.

We dedicate the years ahead to the young men and young women of this area and the State of Mississippi who will follow, and pledge to them that our efforts shall be to serve them and to provide an educational program, the goal of which is to meet their needs by building a greater and a stronger Junior College.

HEN we hear the name of Jerry Flowers, we think of a fellow student and classmate that displayed a cheerful attitude and courageous spirit in the classroom, on the campus, on the athletic field, and now in the hospital. This type of spirit is the kind of Americanism that has made men great and this nation strong. We are for you, Jerry

# JONES COUNTY AGRICULTURAL HIGH SCHOOL AND JUNIOR COLLEGE ELLISVILLE, MISSISSIPPI

The Jones County Agricultural High School and Junior College has been established to render educational service within a definite area. The program is designed to serve the needs of the individual, the group, and the community. It is sufficiently broad to offer many citizens an opportunity to share in the activities of the school. The courses offered meet the needs of those who plan to enter senior colleges or universities as well as those who plan no further formal education. The institution offers a program which will give pre-professional training to those who plan to continue in senior colleges. It also provides a well developed education program for those who plan to continue their work in a degree granting institution, and also for those who terminate their college work at the end of the first two years. In addition to the general academic and pre-professional program, our institution offers vocational-technical training in special areas for those who desire training in trade type or semi-professional courses.

We take pride in the fact that the graduates are able to meet the standards of our senior colleges and those who enter employment immediately upon leaving the institution do well in the work they choose. The students and faculty of Jones County Junior College take an active part in the social, religious, and civic life of this community, the county, and the State of Mississippi.

It is the hope of this institution that those who enter its halls, whether their interests lie in the fields of General Education, Pre-professional Training, Technical - terminal Field, or Business, may improve in knowledge, efficiency and character, and that when they leave they will feel that this institution has made a contribution to each of them during the time that they were a part of this program, and that in turn it will make a contribution to their future.

### Rediscover Your Hometown

Freedom of choice starts where people live and work. There have been vast changes this past decade . . . not only in the world and nation, but also in our home town. And . . . more are on the way. Read your hometown newspaper with care—the advertising as well as the news columns—to discover the freedom of choices that promises you a happier, more abundant life, right here in your own hometown.

# Jones County Junior College

Ellisville, Mississippi

School Opens for Regular Term 1953-54  
September 1

Summer School for 1953 opens Monday, May 25, 1953. Two years of fully accredited work can be had in General Education and pre-professional training in practically any field.

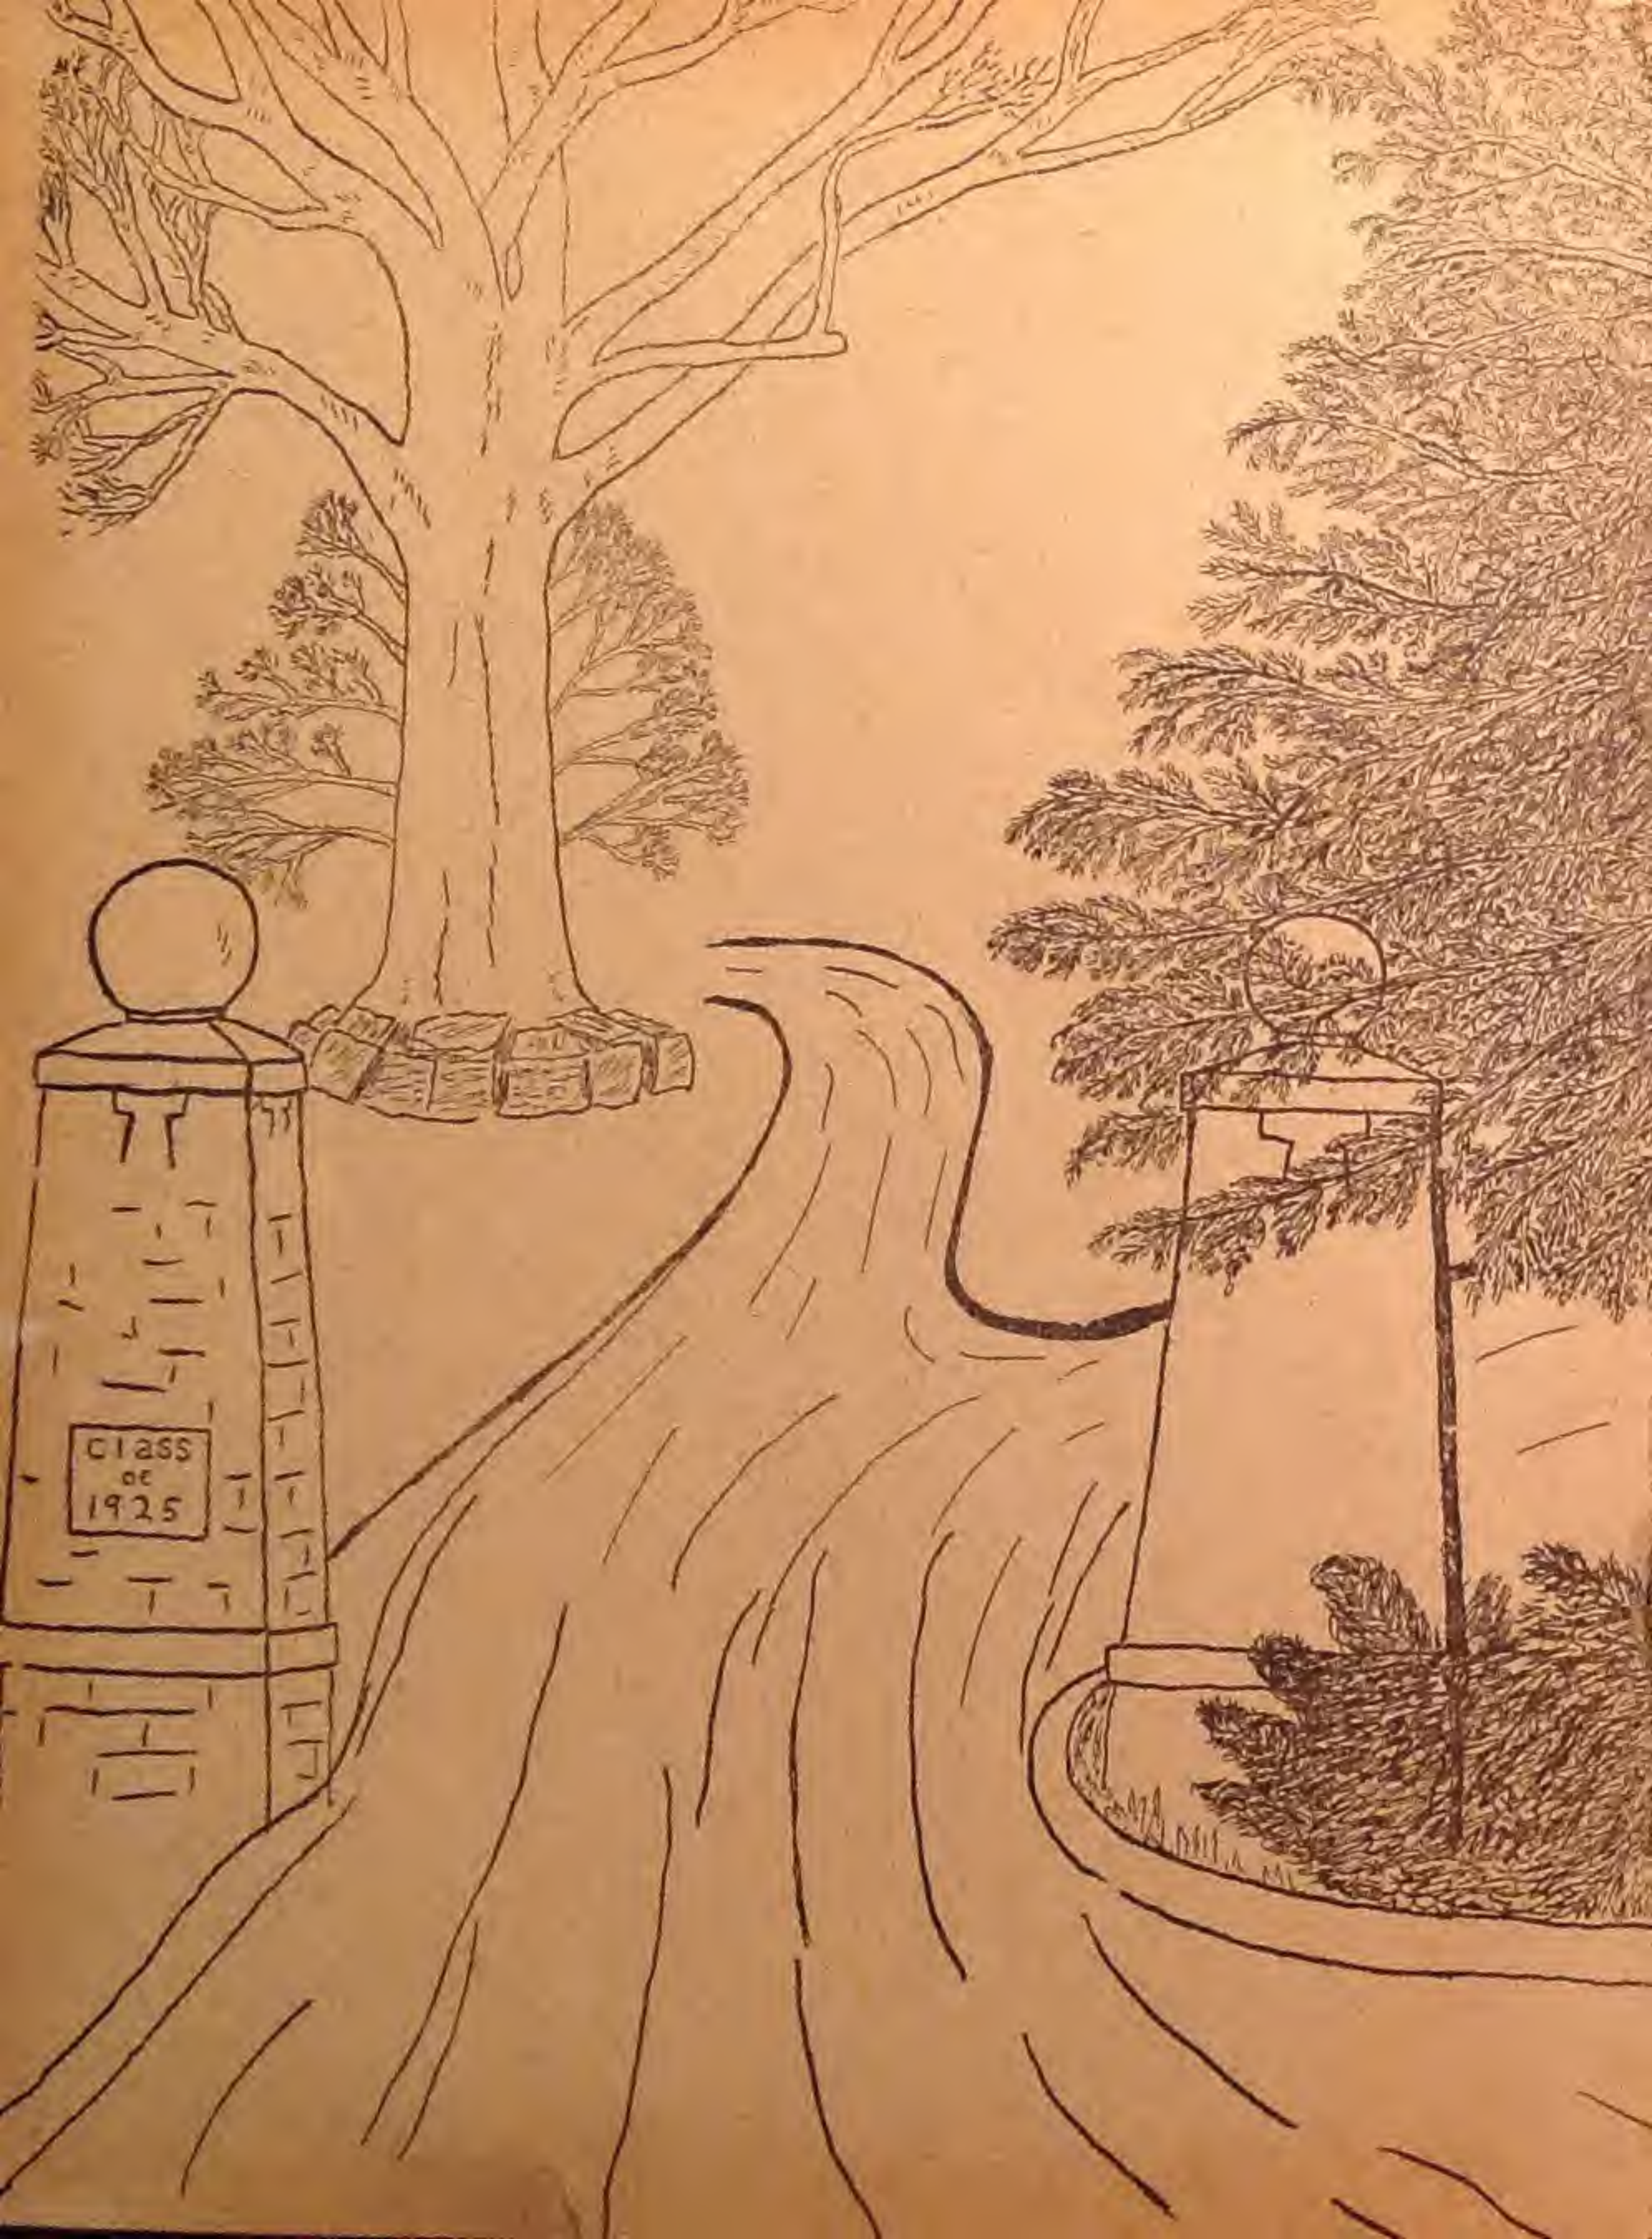

Students are given special attention and special help in Jones County Junior College. The cost for room, laundry, meals, lights, heat, water, and doctor bills is about \$28.00 per month.

For further information write J. B. Young, President Jones County Junior College, Ellisville, Mississippi.
